PREFACE

The economy is the backbone of a country. A country cannot survive without a powerful economy. There are so many examples in the world where countries destroy and collapse. Like Iran, Afghanistan. It is a powerful backbone of the country. If the expenditure is more than earning then the economy cannot improve. Today due to Covid-19, all countries of the world facing an economic problem like America, Italy, Brazil and Indian GDP has decreased by 23%. It is a burning problem for the country. Due to unemployment, downfall in production country cannot improve its economy.

It is a warning to the world that if any country cannot control its unuseful expenditure it will fail and cannot survive. Due to Covid-19 all world facing a great problem. In 2020 corona spread all over the world and it looks that economy of the world cannot improve recently. It will take not less than 5 years. China is also problem forward to create problem in China Sea and other neighbouring countries. It looks that the third world war is on the brink. If it happens none will survive. The third world war will be the end of the economy and we will go back 15 years. Now it is a crucial time for the whole world to avoid third world war at any cost. Our book can help to overcome the bad economic condition to world.

God bless to everyone to control such war so that economy of the world may not collapse.
