## P R E F A C E

Dr. Emidio Valentini is an elderly scholar Who, after a life spent at the highest levels of the ministerial bureaucracy, now in a well-deserved retirement, has remained active especially in writing essays, in which he distilled all his experience as a Public Director and scholar of Economics and Political Sciences. Emidio Valentini has written books on Real Economy. He describes real economy that it helps in case of, a) Highlights Transparency b) Enhance labor productivity (Marx variable capital) c) Capital production factor (Marx fixed capital) d) Productivity of labor and production capital (Total productivity of labor Factors) e) Emphasizes, in the market, the increase in labor productivity due to inequalities f) Highlights c, in the public, often there is a decrease in total productivity g) Highlights the need for the public to monitor and enhance labor productivity h ) Allows permanent monitoring of all management activities i) Makes physiological capital the financial capital ii) It is a standard methodology -from barter to the global market, -for all types of activities, - for the entire world -viable web world. Marx Keynes Ntg's teP and supranational monetary management is also a book on real economy concept. It has described about marx the capital an unexpected and beautiful surprise, very recent - italics are Ntg), the bridge between micro and macroeconomics between Marx and Keynes and Ntg, the principle of effective demand, independent variables and dependent variables, problems of supranational monetary management, and the NTG System.

 Author
